

*Remember your life is like a system what you put in is what you get out. Thus you need firstly to understand who **you** are; this will then produce certain actions (fruits). Thus the secret is to understand that when we see a tree it is created with certain parts such as leaves, roots etc., only when this adds up we name the tree. So if we see a fig tree without hesitation (not thinking of the adding value of the parts) we expect it to produce figs. However we are created to be achievers, but are we producing the fruits? You need to understand that **the secret is in the word "achiever"** the parts of the word must add up to produce its fruits i.e. to achieve. If you understand this you could then figure out what you have to do to produce the necessary fruits. Then, you would be able to become an achiever and lead a successful and valuable life."*

### **ACHIEVER a POEM**

When you start out to find your way  
You sometimes fall to your thoughts at prey,  
Be careful you might go a stray  
Never search for-never knowing  
If it's the right path you're going.

Be very watchful on your talking,  
A strange road it takes you sometimes walking,  
Don't we all know the power of the tongue?  
It can take you through a desert forty years long.

Show faith and feelings of values and be true,  
Be an inspiration with passion and motivation.  
Don't loose your way and wander far,  
God's creation –remember who you are.

Becoming an emotionally intelligent being,

Sometime is much harder than it might seem.  
Know and understand the blessings within your reach - believe.  
Stop sometimes to look where you going,  
It is much better than not knowing.  
Visualize your success, what you can be or do,  
Not what others expect of you.

Sowing in to people's life is a blessing in disguise  
A pattern of living that's quite unique,  
One you may never stop to seek.

Discover your talents, be joyful or,  
Frustration, tension begins to show,  
A road you don't want to go.
